

Peisheng Small Boats (912)

7th May 2018 –

Memo 005

As most members would be aware, the decision has been made to race small boats at the Australian Championships for 10s crews. They will not be used in Western Australia due to the logistical issues involved in transporting them to WA.

We currently have 14 boats available to relocate to Members or Member's Clubs under the following conditions:

Purchase Outright:

The boats are available for outright purchase at \$4,500 each inc GST.

The sale is conditional on the purchaser agreeing to maintain the boat in good condition and hiring it to AusDBF for use at the next three Auschamps for a fee of \$100 per day. AusDBF will also pay for the freight to Auschamps which should be arranged by the purchaser (commercial freight or members costs to deliver it)

Lease to Buy:

AusDBF is also offering as an alternative a lease to buy proposal. The boat would be leased at \$500 per year for 3 years after which ownership would pass to the lessee provided that all conditions had been met.

Conditions:

- The boat is maintained in excellent condition
- The lessee transports the boat to the Auschamps for the next 3 years (excluding WA)

We have set aside several boats to be available to Western Australia but they will not be required to transport them to Auschamps.

If you wish to take up either of the offers or have any queries please contact me direct.

Regards
