

Memo – 002

AusDBF Officials Presenter & Assessor

26th January 2018

Further to the email which was distributed to all members in November last year seeking expression of interest to become AusDBF Officials Presenter & Assessors.

AusDBF has since had discussions on the pathway for Officials and developing the skills, knowledge and potential for the current group of Officials. AusDBF has determined mentoring Officials and upskilling them is a priority.

Based on this, AusDBF is reviewing the structure with Officials and are looking to develop a program for mentoring officials and will be seeking Mentors from each State to be part of this program.

AusDBF is appreciative of the applications they received and ask the States to be patient whilst they develop the Officials Mentor Program. Once the program has structure, AusDBF will be seeking further input from the State Members.

AusDBF asks the States for a little while longer, as AusDBF believes that the Officials Mentor program will be beneficial and positive for all.
