

# AusDBF update

## 15 March 2019

### AusDBF Business Services Coordinator

AusDBF is pleased to announce the position of Business Services Coordinator has now been filled. Applications were received from people around the country and assessed as part of the selection process. After interviewing three potential applicants the interview panel recommended on the appointment of Ms Melanie Cantwell.

Please join us in welcoming Melanie to the position. Melanie brings a wealth of knowledge and experience to the role, with a strong sports administration background and experience in the direction, management and operation of multiple sports.

Melanie has resigned from her position of Director on the AusDBF Board in order to accept her new role. To confirm, she recused herself from discussions in relation to the position and was not privy to any information that was not also made available to the other candidates.

Until further notice, Melanie will use [technical@ausdbf.com.au](mailto:technical@ausdbf.com.au) for email.

### Revolutionise Sport (revSPORT)

The invoices generated for the AusChamps race entries have been displaying some errors; this issue has been flagged with revSPORT and they are working to resolve it. Unfortunately, a solution has yet to be implemented, so at this time the errors are still occurring.

For those who need/want to know, the charges, as explained by revSPORT, are calculated as follows (example to follow):

**Final amount = (Subtotal + 1.60) / (1 - 0.020)**

The fees include \$1.00 to revSPORT, and the credit card fee is quoted as 2.0% plus \$0.60 for PIN Payments. It is noted that the credit card fee is actually closer to 2.04%.

For example, the early bird race fee for a standard boat was \$600.00. GST of 10% is charged on the race entries, so the total race fees are multiplied by 1.10 to get a subtotal:

e.g. \$600.00 race fee x 1.10 GST = \$660.00, including GST

The subtotal is therefore \$660.00 in this example.

The revSPORT calculation for fees is then applied with the aforementioned formula:

$$\text{Final amount} = (\text{Subtotal} + 1.60) / (1 - 0.020)$$

Therefore:

$$\begin{aligned} \text{Final amount} &= (\$660.00 + 1.60) / (1 - 0.020) \\ &= \$661.60 / 0.98 \\ &= \$675.10 \end{aligned}$$

In many instances, the 'Merchant fee' listed under the 'Unit cost' column in the AusChamp race entry invoices is correct. If this amount is added to the race fee amount (including GST), it should match the total amount paid to the credit card. See the example below, and note that when the two values shown are added together, they equal the value determined by the revSPORT calculations above.

Item description	Unit cost	Qty	GST	Amount
Early Bird - 2019 Australian Dragon Boat Championships - Day 2 - Seniors 200m & 2km: Day 2 - 200m - Senior B - Standard Boat - Mixed	\$600.00	1	\$60.00	\$660.00
Merchant fee	\$15.10	1	<del>\$15.10</del>	<del>\$15.10</del>
Total paid				<del>\$675.10</del>
Includes GST of				<del>\$660.00</del>

Add these two values together, e.g. \$660.00 + \$15.10 = \$675.10

Disregard these values

The following example shows calculations with multiple races.

Item description	Unit cost	Qty	GST	Amount
Early Bird - 2019 Australian Dragon Boat Championships - Day 2 - Seniors 200m & 2km: Day 2 - 200m - Senior A - Small Boat - Women	\$300.00	1	\$30.00	\$330.00
Early Bird - 2019 Australian Dragon Boat Championships - Day 2 - Seniors 200m & 2km: Day 2 - 200m - Senior A - Small Boat - Open	\$300.00	1	\$30.00	\$330.00
Early Bird - 2019 Australian Dragon Boat Championships - Day 2 - Seniors 200m & 2km: Day 2 - 200m - Senior A - Standard Boat - Mixed	\$600.00	1	\$60.00	\$660.00
Merchant fee	\$28.57	1	<del>\$28.57</del>	<del>\$28.57</del>
Total paid				<del>\$1,354.43</del>
Includes GST of				<del>\$1,325.86</del>

Subtotal = \$330 + \$330 + \$660 = \$1320  
 Add Merchant fee of \$28.57  
 Total to credit card = \$1320 + \$28.57 = \$1348.57
