

Memo – 003

2020 CCWC Qualifications

31st March 2018

Due to the disruptive weather conditions which were present at the 2018 Australian Championships, in fairness to all clubs concerned across all categories and age divisions, AusDBF has decided no qualifications from this year will be awarded.

This means qualifications for IDBF Club Crew World Championships being held in France 2020 will be awarded in 2019.

5 standard crews plus 2 small crews per category and age division. Ideally it would be better to be spread over two (2) years however AusDBF realise from AusChamps (April) to CCWC (July) is not sufficient time for crews to organise themselves to attend.

Crews who qualify at the 2019 Australian Championships must race the crews they qualify in at the 2020 Australian Championships.

AusDBF hopes clubs understand the decision which has been taken is in the best interest of all paddlers and clubs in Australia.
